 #993. Cymb. Wylan Var. Sailor Bay x Lucy, Porters Green, this is a
 Remake of Cymb. Sirius

The above seedlings are from crosses made in Australia. We do not know just how good the parents are in most cases. They were all made for early flowering varieties to export to this country as cut flowers. If you want to Gamble with Gamble on them you can have one each of the eleven varieties for \$10.00 and we will pay the postage. Shipped out of pots with potting bark in plastic bags. Please NOTE. we have very few of the above and it may be necessary to substitute on one or two varieties if your order is not among the first dozen or so to arrive.

We still have a few sets of the High Quality Cymbidium seedling collections which were offered in our revised fall list. These are Almost all our own crosses and we know that they will be good.

The 1962 Hobbists Special Offer

Which consists of Six Cattleya Hybrids with first sheaths is still good EXCEPT that all of the Yellow Flowered plants with first sheath have been sold. As a Substitute for this yellow we will have to ask that you select your choice of Another Colored (lavender to Purple) but with a different season OR another White OR another Bifoliate. Each plant in this collection of Six will be a different Variety. The Six Plants for \$25.00. Postage or Express charges collect.

We expected to be able to offer a special listing of selected varieties this fall but because we have sold so many plants before they flower we do not have any to flower and select from, with the Exception of course those we retain for our cut-flower and breeding stock and these of course are not for sale. During the past 6 months we have flowered the following new colors and color combinations, in Cattleya Hybrids.

White with Pink Lips.

White with real red lips.

Green with red lips. (Bifoliate)

Pink (not Lavender) with gold lips.

Lavender with White lips (Bifoliate)

Red Purple with RED lips. (Bifoliate)

Lavender with blue overtones and Red Dots (Bifoliate)

Bright Yellow with rich red lips.

Yellow with white lips. (Bifoliate)

Pastel Blend of Lavender and Yellow (Bifoliate)

Peach and Apricot Blends, regular type Cattleyas and Bifoliate Also.
